

Student's Personal Statement

If you are unable to obtain a recommendation this year due to Covid restrictions, you may submit a personal statement in lieu of it for acceptance into the program. In a paragraph, let us know about you and your interests in marine science. You are welcome to talk about what created your interest in marine science, your favorite subject, what you would like to get out of your time with us or any other topic related to science that you would like to address. Essentially, we like to learn a little bit about you!

You may either send a hard copy of this statement to P.O. Box 8308, Ann Arbor, MI 48107 or email it to explore@acadiainstitute.com.

Student's name _____

AIO Session you're attending _____
