

WELCOME to the Acadia Institute of Oceanography!

This is a copy of the letter from your confirmation email. I have attached the following forms, which you should read through carefully:

- Health Form
- Equipment list
- Travel/Medical information
- Mt. Desert Lodging Options
- Cover for Emergency Medicines*
- Parent Permission for emergency medicines*
- Primary Health Care Form for emergency medicines*
- Frequently Asked Questions
- Refund Policy/Additional Service Fees (please read carefully to understand the terms and conditions of enrollment)
- Cell Phone and Electronics Policy
- AIO Logistics and Reminders
- Early College Form, UMM release
- Information sheet about college credit

You have also applied to take the advanced session for 4 college credits from the University of Maine Machias. There is a cover letter attached that explains the additional required work and costs. Read it carefully and, if you agree, complete and return the UMM forms. If you no longer wish to take the course for credit, please let me know as soon as possible to open the space for another student. You can still attend the session and receive the same educational experience.

Unless you have attended AIO previously, you'll need a science teacher/educator recommendation for final acceptance into the program. You can give them the hard copy of the form here or send them to our website (www.acadiainstitute.com) where they can complete the online recommendation. Homeschooled students should attempt to find someone they have worked with in an academic capacity before deferring to their own parent. You will be notified of final acceptance into our program after we receive a satisfactory recommendation. Send or bring your health form when it is completed along with a photocopy of your health insurance card. We must have a signed, current health form on file for you to participate in our program.

Parents, as you begin to work on travel plans contact me should you need advice. Arrival is the first Sunday between noon and 5 pm and departure is the last Friday of the session between noon and 5 pm. Departures outside of this time may incur an additional fee (see Refund Policy). You are invited to join our Family Cookout on the last Friday starting at 4:45 pm. I've attached a list of lodging options if you choose to vacation on the island before, during or after the program. We will pick-up students from either the Bar Harbor or Bangor airports and bus stations at no charge.

New this year: you can avoid the credit card admin fee by paying the entire balance of tuition with a check or money order by April 15, 2019. If you have questions, don't hesitate to contact me by phone (800-375-0058) or email (explore@acadiainstitute.com). We are excited to be working with you this summer!

Sincerely,
Sherry Christy Gilmore, Executive Director

* These forms are only required for emergency medicines that a student must carry at all times (epi-pens and inhalers)
